Projects

Pool Captain (a name of experts) [↗](#)
- Sales Swimming pool equipment,Construction,Repair Services & Maintenance
Pool Captain, a fully responsive website using React.js for the front end and Firebase for data integration. each product has its own specification and details, a tools feature has been added for measuring pool capacity. Implemented dynamic functionality with JavaScript and enhanced UI/UX with libraries including AOS, Transition.js, TypeText, Bootstrap, and Material-UI."

MyToDoApp

MyToDoApp – A full-stack, responsive task management application built with React.js, Express.js, and Firebase authentication. Users can sign up, log in via Gmail, reset passwords, and verify emails using JWT-based authentication. The app allows task creation, editing, deletion, and progress tracking with due dates. Implemented Redux for state management and integrated AOS, Transition.js, TypeText, Bootstrap, and Material-UI for enhanced UI/UX. The Express backend ensures secure authentication and seamless data processing.
